

Knowledge and Skills Progression Document for Forest School

The 6 Principles of Forest School				
Principle 1	Forest School is a long-term process of frequent and regular sessions in a woodland or natural environment, rather than a one-off visit. Planning, adaptation, observations and reviewing are integral elements of Forest School.			
Principle 2	Forest School takes place in a woodland or natural wooded environment to support the development of a relationship between the learner and the natural world.			
Principle 3	Forest School aims to promote the holistic development of all those involved, fostering resilient, confident, independent and creative learners			
Principle 4	Forest School offers learners the opportunity to take supported risks appropriate to the environment and to themselves.			
Principle 5	Forest School is run by qualified Forest School practitioners who continuously maintain and develop their professional practice.			
Principle 6	Forest School uses a range of learner-centred processes to create a community for development and learning			

Tools progression			
Skills	Knowledge		
Vegetable peeler Secateurs Loppers Fire striker Moray knife Bow Saw Bill Hook	I can recognise I have listened and understood what this tool is (tool talk) I have used this tool with help I have used this tool independently I know how to use this tool with a partner (bow saw and bill hook) I can explain to others how to use this tool to others		

Structures			
Skills	Knowledge		
Build a small den	I know how to join two pieces of wood together		
Build a large den natural	I know how to make a tripod/tepee structure		
Build a large den mixed materials	I know how to make an apex structure using a ridge pole or line		
Build a bridge	I know how to peg out a tarp		
Build a tall tower	I know how to fold a tarp		
	I know how to wind a rope		
	I know how to make a weight bearing structure		
	I know how to evaluate and improve my structure		

Fire / Cooking				
Skills	Knowledge			
I know where it is safe to have a fire I can set up a fire area safely	I understand that fire can be dangerous I understand the three components needed for fire			
I can gather sticks for a fire I can build a fire	I understand the rules within a fire circle I know I need to wear a glove to feed the fire			
I can use a fire striker I can light a fairy pillow	I know I need to have water available when I have a fire I know how to extinguish a fire safely			
I can light a fire I can keep a fire going for five minutes	I know how to example a fire safely			
I can keep a fire going for ten minutes				
I can keep a fire going for half an hour I can extinguish a fire safely				
I can remove all trace of a fire I can cook on a fire				

Knots				
Skills	Knowledge			
Basic knot	I have had this knot demonstrated to me			
Clove hitch	I have practised tying this knot			
Half hitch	I can tie this knot accurately			
Timber hitch	I can explain to others how to tie this knot accurately			
Quick release knot				
Reef knot				
Square lash				
Diagonal lash				
Sheer lash				
Frapping				

Nature			
Skills	Knowledge		
I can identify plants I can identify trees I can identify fungi I can identify animals I can identify birds I can identify minibeasts	 I can describe the habitat (Where they live) I can show correct handling (Gentle and caring) I can explain interdependence (How they link together) I can talk about conservation issues (Cause and effect) 		

Games				
Skills	Knowledge			
I can join in a game with others. I can accept when I am out of the game. I can follow a set of rules that apply to a given game. I can adapt rules to suit changes in environment/number of players. I can suggest a set of rules to make a new game with my friends. I can explain to others why a rule is effective or ineffective.	How to play:- "Duck,duck,goose" "123. Where are you?" "Creeper" "Introduce a tree" "Fire Fire"			

Health and Safety Knowledge and understanding		
Skills	Knowledge	
I can describe or show:	plants can prickle or sting me	

plants which may be poisonous					
I know how to move large objects safety in the woodland I know how to help others stay safe in the woodland I know that I need to be gentle with creatures I can name a range of: I can name a range of: I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can assess from characteristics: I can explain how to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g. if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can explain to others: E.g. This is holly and it has sharp leaves that will stab your fingers if you touch the edges					
 safety in the woodland I know how to help others stay safe in the woodland I know that I need to be gentle with creatures I can name a range of: plants that can prickle or sting me plants that may be poisonous weather conditions that will affect how I move around I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can explain how to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g. if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 					
I can name a range of: I can name a range of: plants that can prickle or sting me					
I know that I need to be gentle with creatures I can name a range of: plants that can prickle or sting me plants that may be poisonous weather conditions that will affect how I move around I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can assess from characteristics: I know what characteristics a plant has in order to prickle or sting me. E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can explain to others: E.g. This is holly and it has sharp leaves that will stab your fingers if you touch the edges					
I can name a range of: • plants that can prickle or sting me • plants that may be poisonous • weather conditions that will affect how I move around • I can ask for help when I know an object will be dangerous to move on my own • I can explain what others need to do to stay safe • I can explain how to handle creatures so that they are not harmed I can assess from characteristics: • I know what characteristics a plant has in order to prickle or sting me. • E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples • E.g if its raining it will be muddy and therefore slippy • I can see when an object is too big for me to move by looking at it • I can see danger and make the right choices for me and my friends • I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: • Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges		 I know how to help others stay safe in the woodland 			
 plants that may be poisonous weather conditions that will affect how I move around I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can assess from characteristics a plant has in order to prickle or sting me. E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		I know that I need to be gentle with creatures			
 weather conditions that will affect how I move around I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I know what characteristics a plant has in order to prickle or sting me.  I can ask for help when I know an object will be dangerous to move on my own I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can assess from characteristics: I know what characteristics a plant has in order to prickle or sting me. E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		 plants that may be poisonous 			
 I can explain what others need to do to stay safe I can explain how to handle creatures so that they are not harmed I can assess from characteristics a plant has in order to prickle or sting me. E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		weather conditions that will affect how I move around			
 I can explain how to handle creatures so that they are not harmed I can assess from characteristics: I know what characteristics a plant has in order to prickle or sting me. E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		 I can ask for help when I know an object will be dangerous to move on my own 			
I can assess from characteristics: • I know what characteristics a plant has in order to prickle or sting me. • E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples • E.g if its raining it will be muddy and therefore slippy • I can see when an object is too big for me to move by looking at it • I can see danger and make the right choices for me and my friends • I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: • Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges		I can explain what others need to do to stay safe			
characteristics: • E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it makes sense because you can eat apples • E.g if its raining it will be muddy and therefore slippy • I can see when an object is too big for me to move by looking at it • I can see danger and make the right choices for me and my friends • I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: • Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges		I can explain how to handle creatures so that they are not harmed			
makes sense because you can eat apples E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges	I can assess from	I know what characteristics a plant has in order to prickle or sting me.			
 E.g if its raining it will be muddy and therefore slippy I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 	characteristics:	• E.g. I know not to cook with willow sticks as it has natural aspirin in it. Apple sticks are good to cook with, it			
 I can see when an object is too big for me to move by looking at it I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		makes sense because you can eat apples			
 I can see danger and make the right choices for me and my friends I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		E.g if its raining it will be muddy and therefore slippy			
 I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat I can explain to others: Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges 		 I can see when an object is too big for me to move by looking at it 			
I can explain to others: • Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges		 I can see danger and make the right choices for me and my friends 			
		• I can tell whether an animal should be handled or when it becomes stressed and I should place back in its habitat			
	I can explain to others:	Eg This is holly and it has sharp leaves that will stab your fingers if you touch the edges			
• Eg This plant is called a it has red berries and they are poisonous if you eat them. Or		• Eg This plant is called a it has red berries and they are poisonous if you eat them. Or			
• The leaves on this plant called giant hog weed and it will give you a rash if you allow the sap to touch your skin.					
how trees are affected by different weather conditions in different seasons					
 how to lift and carry objects safely and work as a team to do this 					
• the choices I make and I know my own limitations					
• That insects may attack if they are frightened, so I need to remain calm and not scream panic or run even if I feel		· ·			
frightened to avoid them hurting me or others					

		FS1	FS2	Year 1	Year 2
		Name some animals	Describing nature nouns	I can name:	I can name:
		Name some trees	e.g a wiggly worm is long and	Animals	Animals
		Names of some birds	thin	Birds	Birds
5	,	Names of some insects		Insects	Insects
2	3	(nature nouns)	Name the knots they can tie	Trees	Trees
]			Name the tools they can use		Plants
22	ğ	Name the knots they can tie		Nocturnal	Fungus
		Name the tools they can use			
-	1,			Name the knots they can tie	Nocturnal
10.01				Name the tools they can use	Diurnal
Technical Vocabulary					
و	3			Oxygen	Name the knots they can tie
L	•			Fuel	Name the tools they can use
				Heat	
				Extinguish	Oxygen
					Fuel Heat
