Raised Salt Painting

Salt painting is fun to do and an activity that helps improve the child's creativity. Salt painting can bring out a real potential for art among children, no matter how disinterested they seem at first

What You Will Need:

- Epsom Salt
- Food colour in varied colours
- Glue
- Drawing paper
- Pencil
- Paper plates

How To Perform:

- On a paper plate, add a few drops of food colour on some Epsom salt and mix. Repeat this process for all the colours the child wants.
- Let your child draw their favourite shapes and patterns on the drawing paper.
- Help them apply glue on the designs and then pour the coloured salt over the glued areas.
- Let it dry.

When I grow up

In school we have been talking about what we could do when we grow up. Watch the clip from *Matilda* to inspire conversation in your house.
